

Dear Parents/Carers,

Due to the current pandemic, we have decided that allowing cards to come in from home and be distributed would pose a possible risk of transmission, even if the envelopes themselves were not licked.

However, as we still feel this is an essential part of Christmas, and that we need to maintain Christmas cheer more than ever, we have come up with an alternative. We are going to order in extra craft supplies and each child will make a Christmas card in their class. This card will then be stored away for a couple of days. After this period each child will be then be able to choose a card to take home.

We feel that this will solve two problems. Firstly, there will be no risk of transmission and secondly, it will ensure that every child receives a card (which is not always the case).

We thank you for your support in advance.

The Tweeddale Team
