

Dear Parents/Carers,

As more children need to self-isolate due to the rise in Covid, we will again have to move to remote learning to ensure they do not miss out on an education. We recognise that this can be difficult and you may have questions about the work and how to deliver it. With this in mind, as a school we have created an email address for each class where you can contact the classteacher about the work that has been set.

Please be aware that this email address must only be used for enquiries about the remote learning being set. Teachers will not respond to communications relating to anything other than remote learning.

The email address will be the name of your child's class plus the school domain name e.g. koala@tweeddale.org
